PERSONAL PROFILE

I enjoy coding and am solution-oriented, always open to learning. I aim to utilize my creative thinking style, problem-solving skills, and organizational abilities add value to your projects.

WORK EXPERIENCE

JR. SOFTWARE DEVELOPER | JAN, 2023 - NOW

VRAugment Works Pvt Ltd

I developed and implemented web applications using Laravel and CodeIgniter, both PHP frameworks, and also worked with React.js and Node.js for various web development tasks. For mobile application development, I used Flutter. Additionally, I had the opportunity to work with Augmented Reality (AR) and Virtual Reality (VR) technologies. The best part of this role was the chance to work with a diverse range of technologies.

TRAINEE DEVELOPER (INTERNSHIP)

Ajaspire Technologies, Baramati

During my internship, I developed web and mobile applications using Laravel and Flutter, respectively. I created APIs for mobile app functions and worked on a significant project: an integrated E-Commerce web and mobile application.

SKILLS

TECHNICAL

Laravel, CodeIgniter, React.js, Next.js, Node.js, Flutter, SQL, MongoDB.

PERSONAL

Organize, Problem Solving Ability, team player

PROJECTS

EDUJOBS.AI

Next Js, MongoDB

Edujobs.ai is a platform that connects teachers and educational organizations such as institutes and colleges. On this platform, organizations can post job vacancies, and teachers can apply for these positions. We also provide an admin panel for comprehensive management of all activities.

Url : <https://edujobs.ai/>

KULKARNNI

React Js, Node js, MongoDB

This is a client project. The client is an astrologer who wants a website to display their work. They also require an admin panel to manage their customers.

Url : <https://edujobs.ai/>

E COMPLIANCE HUB

CodeIgniter 4, SQL

The Compliance Hub is a CRM system designed to manage all compliance-related matters. It allows you to assign specific customers to staff and managers, and delegate tasks accordingly. This system automatically creates tasks based on the assigned work. Additionally, an admin can create tasks and assign them to staff or managers. It also provides different login credentials based on roles, among many other features.

WEB AR

Laravel, Mind AR, Three js, SQL

First, we offer an editor where you can upload your business card. Here, you can add video, images, text, or social media links with animations that will appear when you scan the card with your mobile device. While we use a business card as an example, you can use this feature for other purposes as well, such as wedding invitations or other event invitations.
